## DIARY NOTES

25X1A9a  2. discussed briefly four JOT cases which he understood the Medical Staff was about to turn down for rather superficial reasons. I requested that he discuss this matter with Dr. Tietjen before passing judgment on the merits of the cases and that if necessary I would like to be in on this act.  3. I saw Mr. Dulles at Mrs. McCone's funeral. He told me that the SATUR-DAY EVENING POST has requested that he write a piece on the British Official Security Act. At his request I asked Larry Houston to get in touch with him and assist him in any way that he could.  4. Jim Garrison telephoned to seek further guidance on the classification of the National Photographic Interpretation Center. I told him that he would have to wait a day or two. He also told me that he was spending a great deal of money, several hundred thousand dollars, for Project He does not have the money and assumes that he will be reimbursed. The amount that he has spent was a part of his original estimate and I assured him that there was no question that he would get reimbursed.  25X1A9a  5. telephoned to say that Messrs. Benton and Horton, two senior IBM officials, were coming out to the Agency sometime during the week of 18 December. I told him that I would be very glad to meet with these gentlemen for a few minutes.		7 December 1961
